Introduction to Tools

In this part of the Online Training Tools (OTT), you'll practice using the different tools available to help you answer the questions in the tests.

How to use the Pointer

The Pointer button  is always back to the Pointer tool by clicking the question below.

What number comes after 7?

- (a) 5
- (b) 6
- (c) 8

A video will play when the student gets to this page, showing them how to use the pointer. The student is then given the opportunity to practice using the pointer.

The next 5 pages of the practice test allows students to learn about and practice using the tools before they move into LAS Links practice test items.
