The student status dashboard will provide you status by School overall, by grade, by content area and by assessment. When you hover over any color, it will give you student counts.

Click on the icon in the right-hand corner of each chart to make it a list as opposed to a chart.

When you click on one of bars (or circle), it will provide you with a student roster with time stamps, at the bottom of the page.

This is a report that can be exported.
