LAS LINKS ONLINE DATA DIVE VIRTUAL TRAINING

March 6, 2023 | 9:00 a.m. - 12:00 p.m.

In this 3-hour session, participants will have hands-on experience with key features and functionality of the DRC INSIGHT Interactive Reporting System. The session will include a review of the LAS Links scores and the interpretation of those scores as found on an individual student's Profile Report, as well as School and District reports.

Participants will discover the ease of using this tool to learn how to:

- Identify areas where students need targeted instruction
- Aggregate or disaggregate data
- Track student progress over multiple administrations with longitudinal reports
- Connect LAS Links data to effective classroom strategies
- Create and interpret reports from numeric data, charts, and graphs
- Download/Export reports
- Create reading links/lexile reports and utilize lexile.com to increase student's reading opportunities

Sample Lesson

Made in the U.S.A. (Lesson A1) 0.99

CONTENT FOCUS: Social Studies
PROFICIENCY: Beginning to Early Intermediate

OBJECTIVE: Students locate products on a map.

ACTIVITIES: Students identify and describe familiar products, study a product map and map key, review state abbreviations and name products, discuss which states produce particular products, and play "I Spy" to locate products.

PREPARATION:

- a transparency, listing the states and their abbreviations
- copies of "Made in the U.S.A." worksheet for each student

Ideas to spur classroom interaction

Sample Lesson

Discuss Discuss Product Map

1. Distribute the "Made in the U.S.A." worksheet, a product map of the United States. Ask students to find the state where they live on the map. Next, review the state abbreviations and practice switching from state abbreviation to state name, e.g., Find "TX" on the map. Have students point to "TX." Ask: What is the name of the state labeled "TX"? Point to the state abbreviation list and show that this is "Texas." Yes, "TX" stands for "Texas." Continue this activity, practicing with several more state abbreviations.
2. Allow pairs of students time to work with the abbreviations, naming what abbreviations "stand for" on the map, using the following script:

A: Find (state abbreviation).
B: (B points to state.)
A: What does (state abbreviation) stand for?
B: (B says state name.)
