

TABE 13&14 & CLAS-E C&D

TABE Tuesday

December 19, 2024

Data Recognition Corporation – TABE Family of Assessments

TABE is the most comprehensive and reliable set of assessments for assessing foundational skills, English language proficiency and college and career readiness skills of learners.

Discussion Topics

- Current Status of TABE and CLAS-E
- Updates and Changes for TABE 13/14
- Updates and Changes for CLAS-E C/D
- Description of the TABE Workforce Portal
- TABE and CLAS-E Next Test Recommendations
- TABE and CLAS-E Reports and Resources
- HSE Alignments

New Test Forms

NRS Approved

TABE 13 & 14 and CLAS-E, C & D

US Dept of Education - Office of Career, Technical and Adult Education (OCTAE) published the TABE approvals in the Federal Register.

TABE CLAS-E Online C&D – Available now

TABE 13&14 Online – Launches **January 15th**

Paper orders of C&D and 13&14 will ship from our warehouse around April 1st.

** TABE 11 & 12 and CLAS-E, A & B approved through June 30, 2025*

Flexible Delivery

FLEXIBLE TEST ADMINISTRATION OPTIONS

The TABE family of assessments provides greater flexibility in assessment delivery, making it easy to schedule and manage testing for a variety of needs.

Online Testing

Simplify test administration and reporting with DRC INSIGHT™—the ideal, convenient online testing platform that saves you time and resources and provides rapid results.

Remote Testing

Remotely proctor live test sessions from anywhere, at any time, with our remote test administration options.

Offline Digital Testing

Correctional and other non-internet-based programs can use our offline digital solution to deliver computer-based tests when an internet connection is not possible within secure facilities.

Paper and Pencil Testing

Paper-based and alternate formats are available to meet every learner's needs, including local scanning options that significantly reduce costs for paper tests.

TABE 13 & 14 Updates

- TABE 13 & 14 Online – Launching January 15, 2025
 - No changes to the College & Career Readiness Standards
 - No changes to the NRS Level Descriptors
 - Small changes to the Objective Blueprints
 - Paper testing will have one standard answer sheet for all levels
 - Overall reduction in testing time
 - Paper/Pencil mode launching in April

Level M Reading Sample Question

Read the passage. Then answer questions 1 through 7.

Whale Watching

Across the blue, rolling waves, a dark hump rises from the sea. It slides out of sight as an enormous tail lifts and falls. As it does, another hump rises beside it and begins the same dance. Several people cheer from the pontoon boat. Some raise their cameras, while others lift binoculars to get a closer view. These whale watchers are getting what they hoped for—a view of gray whales migrating south.

For thousands of years, whales have fascinated humans. However, until recent times, the average person did not have the chance to see these amazing creatures up close. The first opportunity arose in San Diego, California. There, in 1950, the Cabrillo National Monument was declared a public place to watch whales. Soon after, the first whale watching boats sailed from San Diego harbors. For \$1, people could ride out into the ocean in hopes of seeing whales close-up.

The whale-watching boats became very popular. Soon similar boat trips were available from other seaports. Today millions of people around the world go whale-watching every year.

Interestingly, some whales are just as curious about humans as humans are about them. They may swim near a boat for hours, watching the passengers. Of course, this is a very exciting experience for those on board!

"I was looking through the side of a glass-bottomed whale boat," says one whale watcher. "Suddenly, a blue whale was right next to me! Its eye looked straight at me as it swam by. Its body seemed to keep going and going. It was the most amazing experience of my life!"

At up to 100 feet long, it is no wonder that the blue whale's body kept going. The blue whale is the largest mammal ever on Earth. Its body is the size of a passenger jet. Its tongue can weigh as much as an elephant.

Depending on where a person whale watches, different types of whales may be seen. From the West Coast, people may see gray whales, blue whales, minke whales, fin whales, or killer whales. East Coast whales include humpbacks, finbacks, and minke. On both coasts, dolphins are a common sight. They enjoy eating the same shrimp-like krill as whales.

Whale watchers also may catch sight of sea lions, seals, seabirds, and fish. Whale watching gives people a unique chance to see whales in their natural surroundings. For most, it is an experience they will never forget.

Whales have been a source of fascination for centuries. Studying them in their natural habitat was a challenge for scientists. In the early 20th century, most information about whales came from whaling operations. This began to change in the 1960s, when biologists developed non-invasive methods, such as tracking migrations and recording whale songs. These breakthroughs allowed researchers to learn more about whales without harming them.

The new methods of studying whales revolutionized marine biology. Researchers discovered complex communication patterns and gained insights into whale behavior and ecosystems. Today, these findings continue to shape conservation efforts and public awareness about protecting marine life.

Which of these best describes the structure that is used in the two paragraphs?

- A. These paragraphs compare and contrast several different ideas.
- B. These paragraphs relate events in the order in which they occurred.
- C. These paragraphs present a problem and then a solution to solve it.
- D. These paragraphs identify a cause and show the effect it has on the subject.

TABE CLAS-E Forms C & D

TABE CLAS-E Forms C & D Updates

- Launched on September 3rd, 2024
 - Current CLAS-E Objective have a strong alignment to the new National ELP Standards and new NRS Descriptors
 - Refreshed forms will have new and updated items
 - Paper testing will switch to the free DRC Local Scanning portal
 - Data exchange with ESL Publishers planned
 - *Similar to the current connection with Essential Education and Aztec Software for TABE*
- TABE Online users - If you are interested in piloting the new CLAS-E, C & D put a note in the chat.

CLAS-E Changes

TABE
CLAS-E

TABE ESL STANDARDS

Objectives, Subskills, and Subskill Focuses

1.0 READING

1.1 QUANTITATIVE LITERACY

- 1.1.1 Numbers and Numeracy Terms** – Identify cardinal and ordinal numbers, units (time, money, temperature), shapes, and basic operations.

1.2 READ WORDS

Recognize word parts and comprehend contextual vocabulary encountered at home, in the community, and in the workplace.

- 1.2.1 Morphemes and Syntax** – roots, affixes, parts of speech
- 1.2.2 Words and Phrases** – picture or context-cued words and chunks
- 1.2.3 Same Meaning**
- 1.2.4 Opposite Meaning**
- 1.2.5 Appropriate Associated Information** – associate related data in functional texts, e.g. proper contents of a form's blank

1.3 READING COMPREHENSION

Comprehend the details and overall meaning of a passage or graphic display that addresses topics in the home, community, or workplace.

1.3.2 Identify Information

TABE
CLAS-E

TABE CLAS-E Objective Structure Forms C&D

READING

READ WORDS

- 1.2.1 Morphemes and Syntax** – Recognize the proper word form in context; recognize the meaning of common affixes.
- 1.2.2 Words and Phrases** – Comprehend basic vocabulary; recognize common affixes and comparative forms.
- 1.2.3 Same Meaning** – Recognize words used synonymously within the text.
- 1.2.4 Opposite Meaning** – Recognize the opposite of a word in context.
- 1.2.5 Appropriate Associated Information** – Comprehend context in order to supply missing information.

- 1.2.6 Numbers and Numeracy Terms** – Recognize cardinal and ordinal numbers in written form.

READING COMPREHENSION

- 1.3.1 Identify Information** – Understand stated details in the text.
 - 1.3.1.1 Recall specific information and concepts within a text.
 - 1.3.1.2 Recall the sequence of events in a text.
- 1.3.2 Construct Meaning** – Derive meaning from related pieces of information.
 - 1.3.2.1 Identify the central or main idea of a text.
 - 1.3.2.2 Identify the key points of a text; summarize a text.
 - 1.3.2.3 Use reasoning to understand cause and effect within a text.
 - 1.3.2.4 Compare and contrast different ideas, characters, or events in a text.
 - 1.3.2.5 Draw conclusions based on information in a text.

1.3.3 Extend Meaning – Demonstrate critical understanding.

- 1.3.3.1 Determine whether a statement from a text is fact or opinion.
- 1.3.3.2 Make predictions based on information from a text.
- 1.3.3.3 Make a claim or a generalization based on information within a text.
- 1.3.3.4 Identify an author's purpose or reasoning for writing a text.
- 1.3.3.5 Identify features of an author's writing style and techniques within a text.
- 1.3.3.6 Identify the tone of a text; identify an author's attitude toward a topic in a text.

The Measurable Skills Gain (MSG) is designed to measure interim progress made by students during a program year. N denotes the student either did not have enough data to measure a gain or did not receive a gain; and Y denotes the student received an MSG in the program year.

The 'Next Recommended Level' is driven by the scale score from the most recent test for each content area. This recommendation helps identify the next TABE test to administer in order to guide the student toward demonstrating a Measurable Skills Gain. Always consult your program administrator if you have questions or concerns about how to post-test your student.

TABE and High School Equivalency

TABE 13 & 14 and High School Equivalency (HSE) Tests are aligned to the College and Career Readiness Standards (CCRS)

TABE 13 & 14 was designed to continue to support pathways to High School Equivalency and beyond

In states where adult learners are tested multiple times, is it necessary to require all subjects of a High School Equivalency test where TABE is being used?

- TABE can help support an alternate path to fulfill those state requirements
- Depending on the level of TABE, states using this assessment have already assessed many of the same content areas and standards

TABE and HSE Concordance

TABE TO HSE CONCORDANCE: READING

Note: The TABE scale score concordance scores are based on the following passing scores from each HSE vendor:

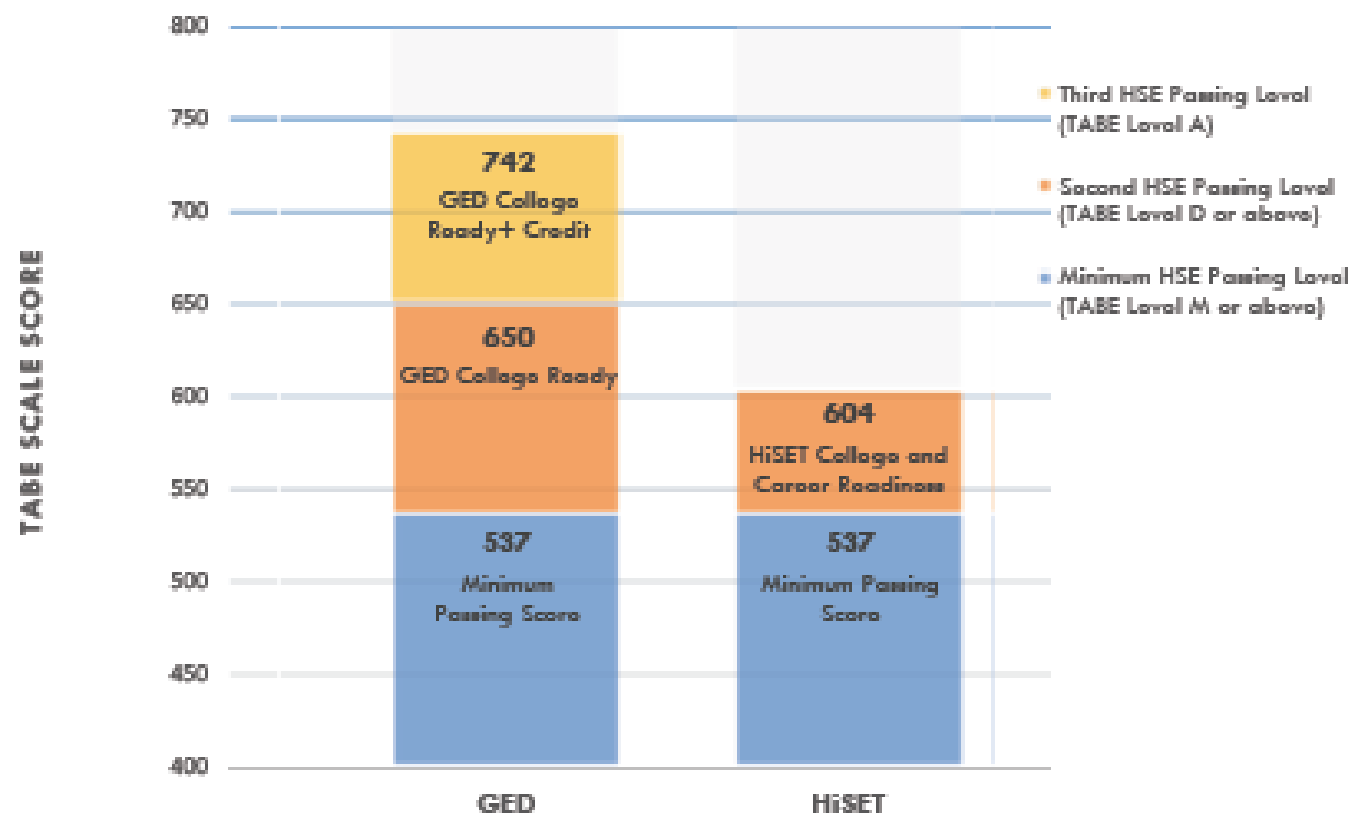

Minimum HSE Passing Scores (Reading): GED (145), HiSET (8)

Second Level HSE Passing Scores (Reading): GED College Ready (165), HiSET College and Career Readiness (15)

Third Level HSE Passing Scores (Reading): GED College Ready+ Credit (175)
