

## INTRODUCING TABE EDGE

*Offered in partnership with the people who make TABE. Delivered by the most trusted provider of adult education and workforce solutions.*

Data Recognition Corporation (DRC) and Aztec Software have partnered to deliver TABE Edge—the only targeted practice solution built in direct partnership with the creators of TABE. Aligned to TABE 13&14 blueprints and delivered inside the Aztec Learning System, TABE Edge helps programs close skill gaps, improve scores, and achieve measurable gains faster.

### **Targeted Practice That Drives Measurable Gains**

TABE Edge delivers standards-aligned, skill-level practice so learners focus on exactly what they need to improve—with no time spent on skills they've already mastered.

- Thousands of targeted practice items that mirror the official TABE 13&14 assessments across all levels of Reading, Math, and Language
- Designed to help learners build confidence, practice skills, and improve their TABE test results
- Skill-level alignment to the TABE Individual Profile Report
- Immediate feedback and remediation to reinforce learning
- Directly supports Measurable Skill Gains (MSG)

**With TABE Edge, programs can target the right skills at the right level for faster results.**
